Mr. and Mrs. G. M. Robbins and Masters Richard and George returned home last Friday afternoon, having visited Cleveland, Pittsburg, Buffalo, Albany, New York and stopped for a few days with Capt. Paddison at Point Caswell, N. C. They had a very pleasant trip and only regretted that their stay at the north could not be longer.

Indian River band, of this place, through its manager, Capt. James Pritchard, has been engaged to furnish the music for the coming state fair at Lake City, November 11th to 14th, and also has been engaged to play for two concerts while there. This speaks well for the band to be called to furnish music for such an important occasion. The band is now holding three rehearsals a week and will be in fine shape for the event.

County Solons Meet.

The board of county commissioners have been in session revising the registration list, attending to some road business and fixing up the official ballots for the general election, which were printed yesterday. The official ballot does not contain the names of justices of the peace, nor constables, who were nominated at the July primary, because the names were not certified to the board by the executive committee. Neither does the name for fish and game warden appear on the ballot, as that office is an appointive one. The board adjourned yesterday until Oct. 25th, when the board will meet Orlando, where Mrs. Sanders will visit her to restore to the registration list any names erroneously erased, and where application for restoration is made, if it is thought proper that such application should be granted.

An Appeal. Editor of The Florida Star.

The state fair for Florida will be .held at Lake City November 11th to 14th, inclusive. Nearly every county in the state will be well represented. Brevard county, by its county commissioners, has officially recognized the importance of the fair by making an appropriation and appointing a commissioner to get up an exhibit, transport it to Lake City, and see to it generally.

The time has come for the commissioner to make an appeal to the pride and patriotism of the people of every part of the county for such material as they have for an exhibit. The press of the county has been most kind and progressive and sioner is enabled to address every citizen station at Hobe Sound, which is known in the county.

Your help is needed and your cooperation earnestly requested. I propose to make a thorough, canvass of the county in the course of the next few weeks, but each individual can greatly assist by sending me a line saying what they or their neighbors will have for show.
